

Steven Grain | A Web Developers CV

Recently graduating from University, Steven is an enthusiastic Web Developer with a passion for creating clean, semantic code. Steven strives to create the most accessible and usable websites without taking away any creativeness or individuality from them.

Understanding the importance of the mobile web, Steven creates all websites to be responsive, and optimised to whatever device the site is accessed on.

Manchester Metropolitan University
BSc (hons) Web Development
Predicted Grade: 2:1
2010 – 2013

Chesterfield College

The Jolly Farmer
Pentland Road
Dronfield Woodhouse
Dronfield
S18 8ZQ
2006 – 2013

I was a barman here and was given many responsibilities in relation to the day-to-day running of a pub. Responsibilities included serving customers food and drink, opening and closing the pub, changing barrels including real ales, cleaning the beer lines, taking food and drink deliveries and keeping the bar stocked and clean.

I left here after moving to Manchester for university, however I have always been accepted back out of term time.

Sainsburys
Wreakes Lane
Dronfield
S18 1NW
2005 - 2006

My main role here was to stock shelves and help with any customer enquiries. I left here after my contract expired.
